
Naruto.Shippuden.Ultimate.Ninja.Storm.Revolution-CODEX The Game

Stunning anime visuals and smooth 3D ninja combat once again come together in Ultimate Ninja Storm, the largest and most explosive game yet. Naruto ... I found out about Naruto being featured in this game three years ago when the first trailer came out. I'm certainly not a Naruto fan, but I wanted to see what the manga and anime would look like in the games. Also, I was pretty seriously into anime toys at the time. But at the time, despite the trailer, I thought it was nothing more than another Naruto game. And now, finally, the game is out. And everything in it is spot on. The story, the characters, the battles. Everything without exception.
